SpringFast® Wire Protection Grommet Edging

Installation Tool Kit

Tool Kit Part Number: 800TK

Spring-Fast Wire Protection Grommet Edging Installation Tool Kit combines all the installation tools you need to get the job done right when installing the NAS M22529/1 and NAS M22529/2 Composite Grommet Edging.

From measuring the chassis with the 'Go/No-Go' gauge to finishing the grommet to accommodate a nearby interference point with the Castle Removal Tool, this tool kit will improve productivity and quality compared to adhesive-applied grommets.

Packaged in a '5S' style Shadowbox for easy monitoring and control on the shop floor, the kit includes:

Tool Kit

Sheet Thickness 'Go/No-Go' Gauge

- Go/No Go gauge for all Spring-Fast sizes
- For sheet thicknesses from 0.020" to 0.260" (0.5mm - 6.6mm)
- Made from stainless steel

Adhesive Backed Bench Top Mount Measuring Scale

- Adhesive backed for applying to work bench
- Measures in inches and castles
- 24" long (154 castles)

Full Bypass Cut Off Shears

- Quickly cuts Spring-Fast grommet and Trim-Fast™ edge trim, assuring a clean, burr-free cut.
- Prevents distortion of adjacent castles

Roll Fast™ Installation and Application Roller Tool

- Quickly installs Spring-Fast grommet edging
- 1/2" (12.7mm) outside groove diameter

Castle Removal Tool

- Fast and easy operation for removing single castles
- Polished, forged steel cutting edge provides excellent longevity
- Ergonomic handles for comfortable operation
- Tool Weight: 0.22 lbs
